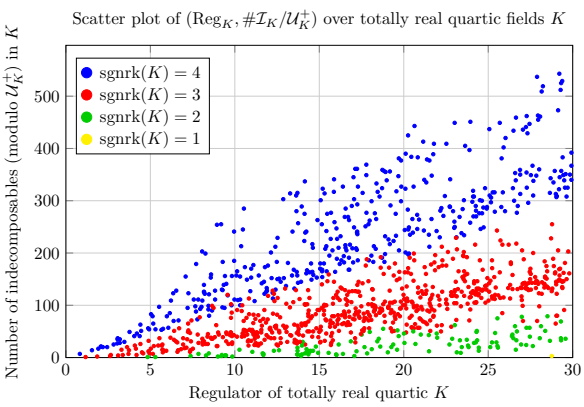
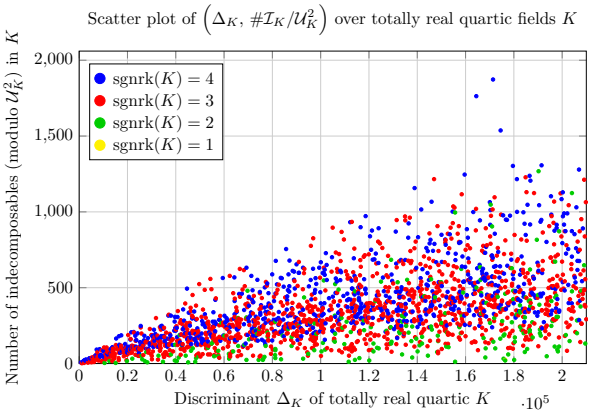
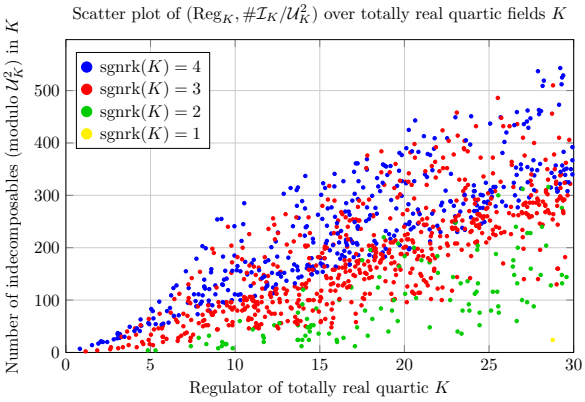
Scatter plot of $\left(\Delta_K,\ \#\mathcal{I}_K/\mathcal{U}_K^+\right)$ over totally real quartic fields K
Number of indecomposables (modulo $\mathcal{U}_K^+$) in K
Discriminant Δ_K of totally real quartic K
$\cdot 10^5$
sgnrk$(K) = 4$
sgnrk$(K) = 3$
sgnrk$(K) = 2$
sgnrk$(K) = 1$



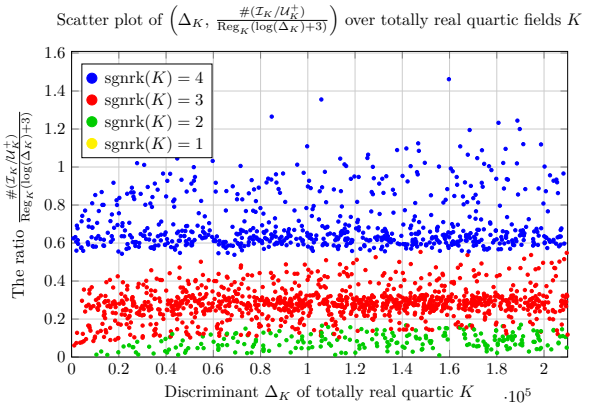
Scatter plot of $(\mathrm{Reg}_K,\ \#\mathcal{I}_K/\mathcal{U}_K^+)$ over totally real quartic fields K
Number of indecomposables (modulo $\mathcal{U}_K^+$) in K
Regulator of totally real quartic K
sgnrk$(K) = 4$
sgnrk$(K) = 3$
sgnrk$(K) = 2$
sgnrk$(K) = 1$



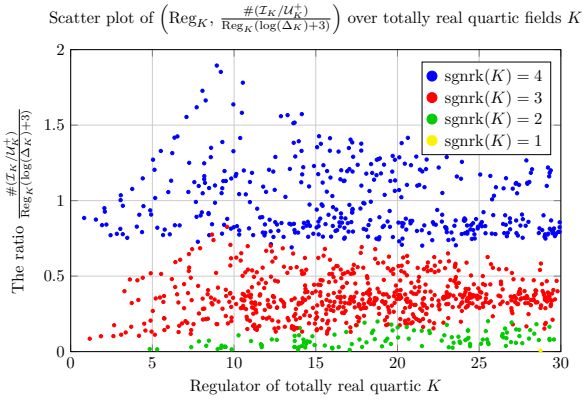
Scatter plot of $\left(\Delta_K,\ \#\mathcal{I}_K/\mathcal{U}_K^2\right)$ over totally real quartic fields K
Number of indecomposables (modulo $\mathcal{U}_K^2$) in K
Discriminant Δ_K of totally real quartic K
$\cdot 10^5$
sgnrk$(K) = 4$
sgnrk$(K) = 3$
sgnrk$(K) = 2$
sgnrk$(K) = 1$



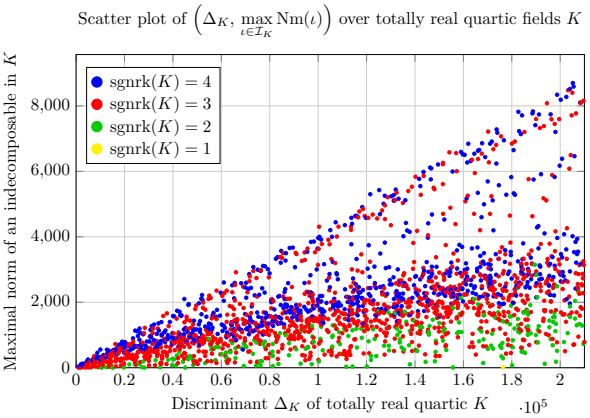
Scatter plot of $(\mathrm{Reg}_K,\ \#\mathcal{I}_K/\mathcal{U}_K^2)$ over totally real quartic fields K
Number of indecomposables (modulo $\mathcal{U}_K^2$) in K
Regulator of totally real quartic K
sgnrk$(K) = 4$
sgnrk$(K) = 3$
sgnrk$(K) = 2$
sgnrk$(K) = 1$



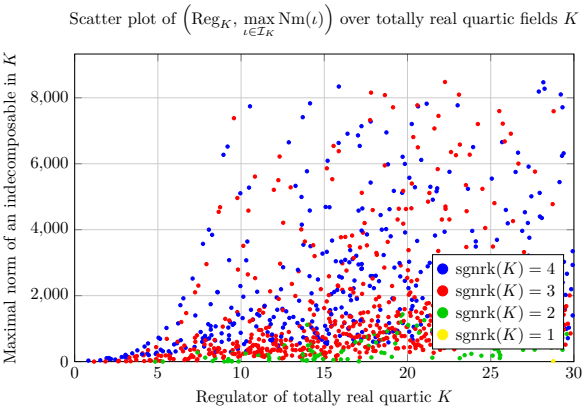
Scatter plot of $\left(\Delta_K,\ \frac{\#(\mathcal{I}_K/\mathcal{U}_K^+)}{\mathrm{Reg}_K(\log(\Delta_K)+3)}\right)$ over totally real quartic fields K
The ratio $\frac{\#(\mathcal{I}_K/\mathcal{U}_K^+)}{\mathrm{Reg}_K(\log(\Delta_K)+3)}$
Discriminant Δ_K of totally real quartic K
$\cdot 10^5$
sgnrk$(K) = 4$
sgnrk$(K) = 3$
sgnrk$(K) = 2$
sgnrk$(K) = 1$



Scatter plot of $\left(\mathrm{Reg}_K,\ \frac{\#(\mathcal{I}_K/\mathcal{U}_K^+)}{\mathrm{Reg}_K(\log(\Delta_K)+3)}\right)$ over totally real quartic fields K
The ratio $\frac{\#(\mathcal{I}_K/\mathcal{U}_K^+)}{\mathrm{Reg}_K(\log(\Delta_K)+3)}$
Regulator of totally real quartic K
sgnrk$(K) = 4$
sgnrk$(K) = 3$
sgnrk$(K) = 2$
sgnrk$(K) = 1$



Scatter plot of $\left(\Delta_K,\ \max_{\iota\in\mathcal{I}_K}\mathrm{Nm}(\iota)\right)$ over totally real quartic fields K
Maximal norm of an indecomposable in K
Discriminant Δ_K of totally real quartic K
$\cdot 10^5$
sgnrk$(K) = 4$
sgnrk$(K) = 3$
sgnrk$(K) = 2$
sgnrk$(K) = 1$



Scatter plot of $\left(\mathrm{Reg}_K,\ \max_{\iota\in\mathcal{I}_K}\mathrm{Nm}(\iota)\right)$ over totally real quartic fields K
Maximal norm of an indecomposable in K
Regulator of totally real quartic K
sgnrk$(K) = 4$
sgnrk$(K) = 3$
sgnrk$(K) = 2$
sgnrk$(K) = 1$
